# Brookline Precinct Profiles

## Precinct 11

### Introduction

The Brookline Precinct Profiles, otherwise known as, "Where in the World is Your Precinct?" were conceived by the Brookline Town Meeting Members Association (TMMA). The profiles have been developed for two purposes: First, to ensure that precinct residents have a resource to refer to when seeking information about their precinct; Second, for Town residents in other precincts and other people interested in learning more about a particular precinct.

### Precinct 11 Narrative

#### ◆ *Precinct Boundary*

Precinct 11 is located in north west Brookline, adjacent to Brookline precincts 9, 10, and 13. It is bounded on the north by Winchester Street, on the east by Beacon Street, on the south by Westbourne Terrace, and on the west by the City of Boston.

#### ◆ *Precinct 11 History*

Precinct 11 is primarily defined by Beacon Street and Corey Hill. Corey Hill, or Great Hill, was known for its healthful air. During the second half of the 19<sup>th</sup> century, it was an area of open pastures, wooded groves, and working farms. Since then, it has been transformed into a primarily residential area consisting largely of single and multi-family houses and transformed institutional /medical facilities. Summit Avenue was laid out soon after the civil War in 1869 for pedestrian traffic to ascend Great Hill to see the view. According to some reports, as many as 400 people climbed the hill on a Sunday afternoon. By the early 1870s, Eben Jordan (founder of Jordan Marsh) owned much of the land owned by the Bartlett family. Around this time, more houses began to appear, primarily built by merchants. The Coreys still owned land, mostly on the north slope. Beacon Street had been laid out in 1850 as a county Road.

It was widened in the 1880s by Henry Whitney along the designs of Frederick Law and John C. Olmsted with its trolley line. This section of Beacon Street was separated and had grand houses with several prominent owners, including Chase of Chase & Sanborn; Eben Jordan, Jr. and King Gillette, of the safety razor fame. Also along this stretch of Beacon Street probably one of the grandest courtyard apartment houses in Brookline, the Stoneholm. It was designed in the Beaux-Arts Baroque style by Arthur H. Bowditch in 1907. Many hospitals built facilities atop the hill to take advantage of the healthful location, including the Corey Hill Hospital (1903) and the Brooks Hospital in 1914. Brooks also established an open air "cubicle hospital" to combat the influenza epidemic in 1918. The area developed after 1916 is dominated by single and some multi-family houses.

The Town purchased a parcel of land at the top of the hill in 1900 and additional land in 1916 across the street to preserve the outlook. Most of the land stood open until the 20<sup>th</sup> century.

#### ◆ *Precinct 11 Today*

Precinct 11 includes an area of 114 acres or nearly 5 million square feet of land area. It chiefly consists of a mix of one- and two-family and multi-family residential land uses. It also contains a moderate amount of recreation and open space and land dedicated to municipal facilities.

As noted above, the land-use pattern for Precinct 11 is a mix of one and two-family homes, multi-family buildings, and recreation and open space lands. Combined, single-family residential land use (46%) and two-family residential land use (21%) make up more than two-thirds of the land use area of the precinct. Multi-family residential makes up another 16 percent of

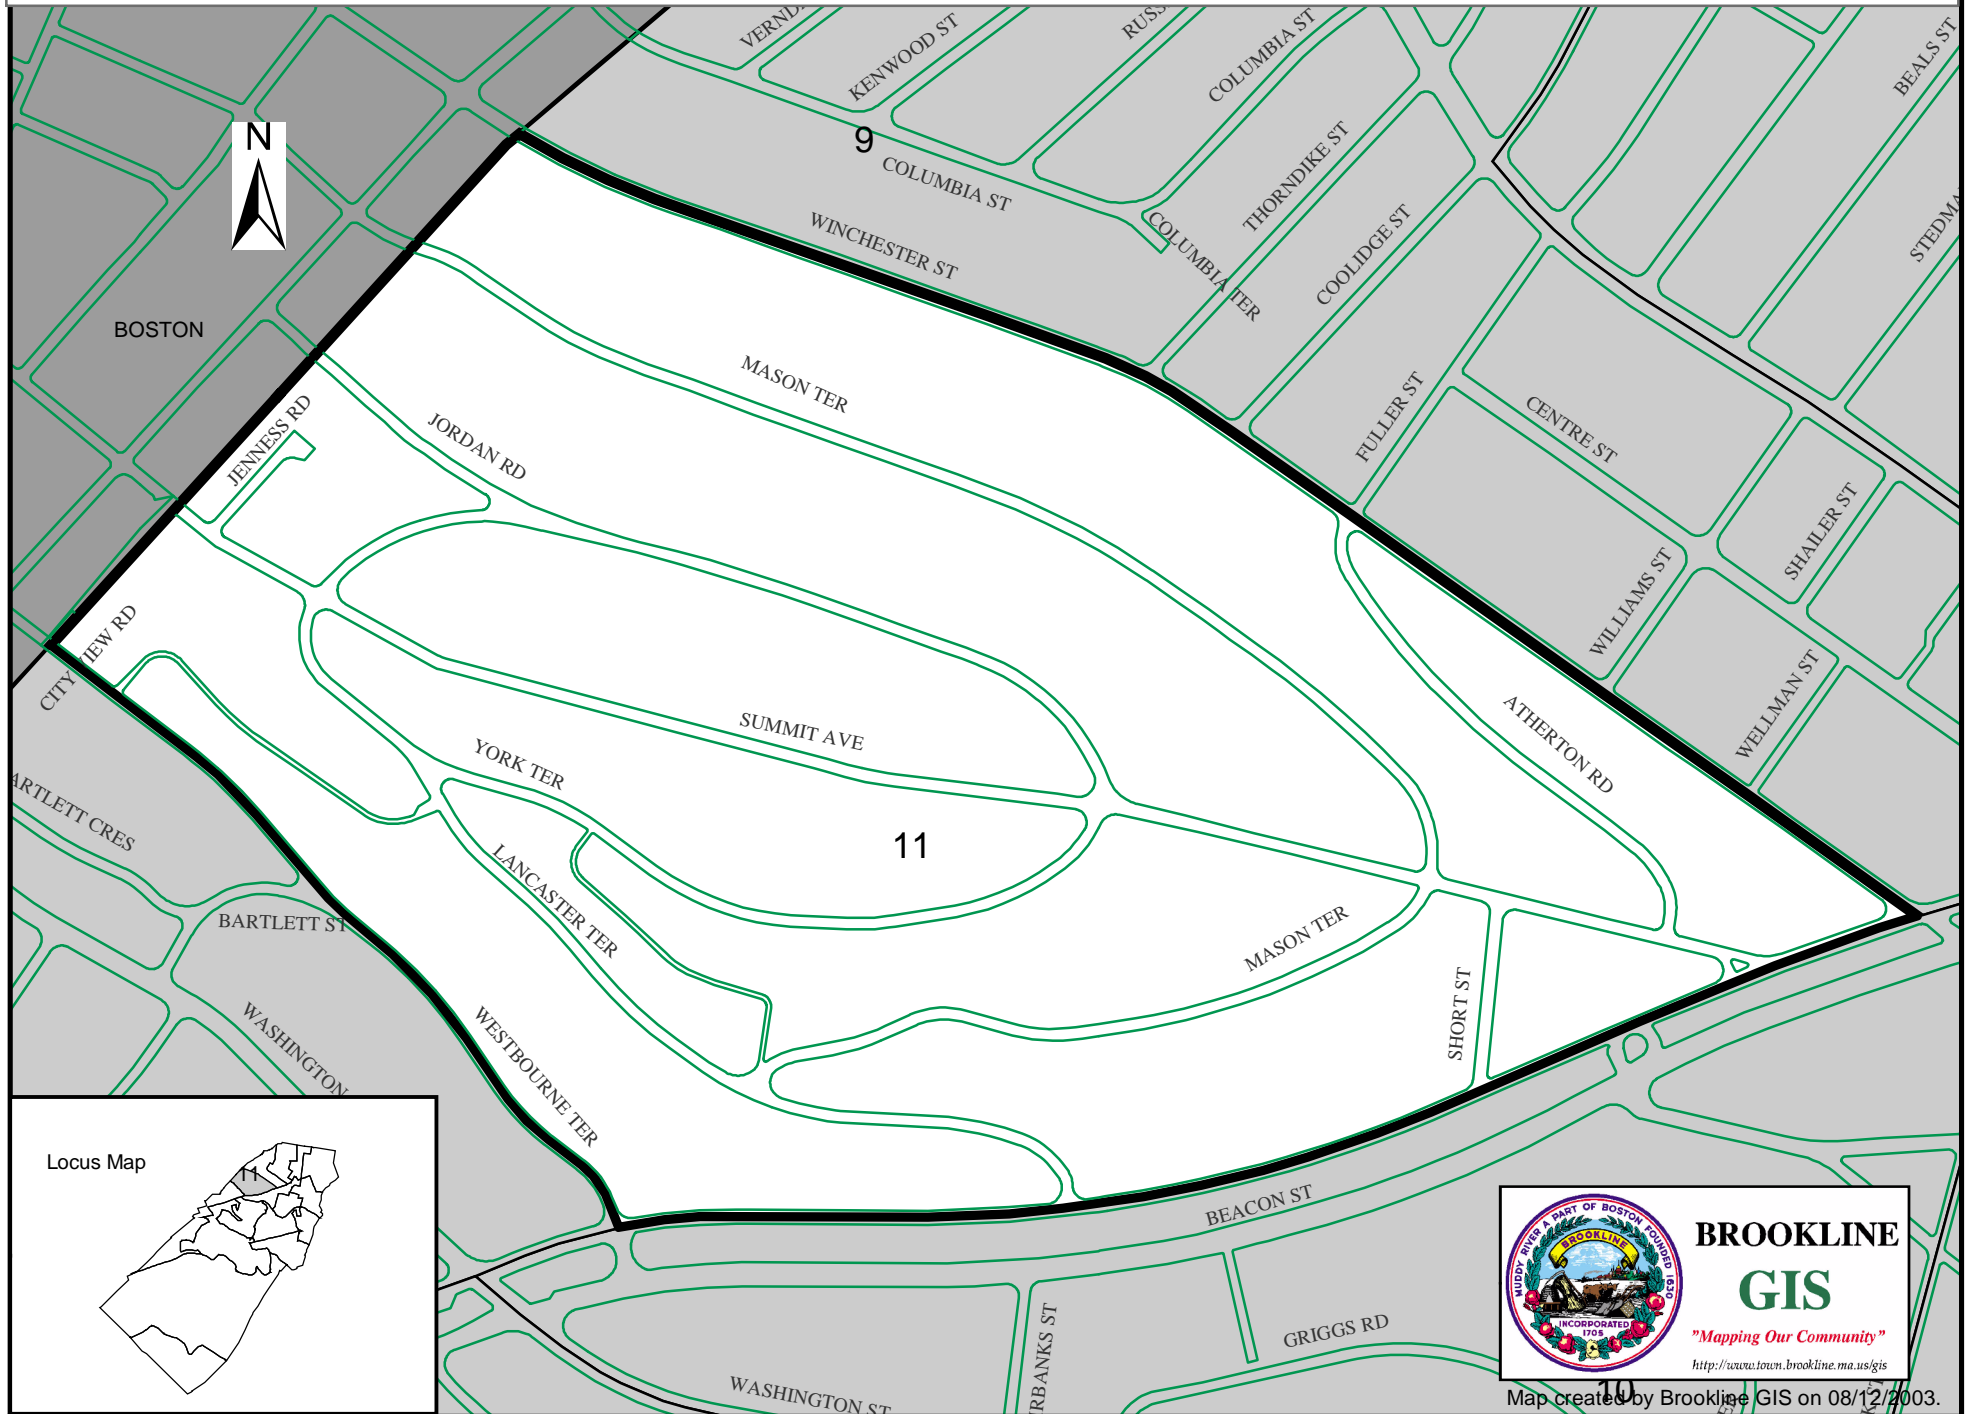

the land area of the precinct. Except for these residential land uses, no other single land use makes up as much as 5 percent of the precinct. Public recreation and open space make up 4.3 percent, and land for municipal facilities makes up another 4.3 percent. Precinct 11's focus of activity is its

frontage on Beacon Street, which provides easy access to both the Washington Square and Coolidge Corner commercial areas. Precinct 11's public recreation and open space includes Corey Hill Park. Houses of worship in or near the precinct include the Temple Beth Zion.

**Required Lot Frontage: 25' in S and SC districts  
20' in all other districts**

**FOOTNOTES:**

1. If the entrance to a garage or covered vehicular passageway faces toward the street to which its driveway has access, said entrance shall be at least 20 feet from the street lot line.
2. At the end of each row or block of one-family attached dwellings, a yard shall be provided along the street line or side lot line of at least ten feet plus one foot for each dwelling unit in excess of two. In T districts, see also §5.48. In M districts, a building subject to the side yard formula:

$$10 + \frac{L}{10}$$

may be built to the side lot line: (a) as a matter of right if, on the adjoining lot, a principal building with no setback from that lot line already exists or is proposed to be built concurrently; (b) by special permit if the Board of Appeals finds that reasonable development of the lot necessitates building to the side lot line, such action does not unreasonably infringe upon the light and air of any existing adjoining building, and the party wall is solid and has neither doors nor windows. A building with

no side yard shall not have a building wall on the side lot line extending more than 70 feet to the rear of the front yard required by this By-law; except that a building wall may be located along any part of a side lot line on which a principal building on the adjoining lot abuts between the rear yard required by this By-law and the required front yard line. Where building walls more than 70 feet to the rear of the required front yard are not permitted to be built along the side lot line, said walls shall have a side yard setback not less than:

$$10 + \frac{L}{10}$$

the "L" dimension being that portion of the wall required to be set back from the side lot line.

3. L is the length of a wall parallel (or within 45 degrees of parallel) to the lot line, measured parallel to the lot line, subject to the provisions of [§5.41](#) for buildings of uneven alignment or height. H is the height, measured as provided in [§5.30](#), of that part of the building for which the setback or yard is to be calculated.
4. Automotive uses are subject to the requirements of [§§ 6.30](#) and [6.40](#).
5. See [§5.07](#), Dwelling in Business and Industrial Districts.
6. See [§5.54](#), Exception for Existing Alignment.
7. See [§5.64](#), Side Yards for Non-Dwelling Uses in Business or Industrial Districts.
8. See [§5.73](#), Rear Yard in Business or Industrial Districts.
9. Where two different maximum height figures are specified with a hyphen for the same use in one zoning district, the lower figures shall apply to any lot or part of a lot located in a buffer area as defined by [§5.31, paragraph 3](#). Where a height figure is followed by a zoning district designation as defined in [§3.02](#), that figure shall be the maximum allowable height in that category for that particular district.
10. The setback requirements for other dwelling structures in any of the S and T districts shall be the most restrictive setbacks required for the dwellings permitted in the districts, but the side yard setback shall be no less than 10 feet in any case.
11. PBI (Public Benefit Incentives) for floor area ratio and height may be granted only if the requirements of [§5.21](#) and [§5.32](#) respectively are satisfied. B represents buffer area and NB nonbuffer area regulations. Further, projects shall also be subject to any design guidelines adopted by the Planning Board.
12. Where any land in a G-2.0 Districts abuts a public street opposite any land in an S district, any building in the G-2.0 District shall be set back a minimum 20 feet from the street lot line facing the S district and the setback area shall be landscaped and not be used to provide parking.
13. See [§5.91](#), Minimum Usable Open Space, for open space requirements for residential use with more dwelling units than are permitted as of right in that district.
14. For life care facilities in S-25 districts, the Board of Appeals may allow by special permit an FAR up to 0.3, where appropriate public benefits are provided, such as listed in [§5.21, paragraph 1](#).
15. For dwelling subject to [§5.11, paragraphs 2 and 3](#), the allowed floor area ratio maximum shall be the same as for 1-family detached dwellings subject to [§5.11, paragraph 1](#) in the relevant zoning district.
16. In the G-1.75 (LSH) Limited Service Hotel District, for Use 8A, Limited Service Hotel, the following dimensional requirements are allowed: Floor Area Ratio Maximum of 3.30; Height Maximum of 90 Feet and 8 stories above grade; and Minimum Rear Yard – None.

## DATA SOURCES

GREENWAYS: Brookline Conservation Commission

Open Space: Brookline GIS, 3/97. Developed in house by Brookline GIS staff with the help of the Conservation Commission. Based upon the Boston Edison street network, parcels data layer. Attribute information derived from the 'OPEN SPACE IN BROOKLINE' publication by the Conservation Commission.

MBTA Lines: Obtained from Central Transportation Planning Staff (CTPS) and modified by Brookline GIS staff. 12/96

Bus Routes: Developed by Brookline GIS staff, based upon MBTA's bus line paper maps, the street edges, centerlines, and back of sidewalks base data from Boston Edison Co 08/97.

Street Edges, Street Center lines: Boston Edison Company.

WATER BODIES: BEC Co.

TOWN BOUNDARY: BEC Co.  
Updated by CDM Inc. based upon Brookline Assessor's map sheets.

MAP SCALE 1:2800
